To: All Vogt Ice Representatives

Subject: Price Increase Announcement

Dear Valued Distributors / Representatives:

Attached is a table itemizing the price increase by product line. This increase is effective immediately and was made necessary by the rapid rise in carbon steel prices experienced earlier this year and increases in stainless steel and other materials.

We will honor the 3% interim price increase for orders entered and deposit received by August 31st, 2008. Orders must be released for manufacturing (i.e. cannot be entered and placed on hold). Please notify the factory if there are any issues associated with outstanding quotations.

Please feel free to contact us with any questions. We appreciate your patience with this difficult process.

Sincerely,

A handwritten signature in black ink, appearing to read "Dan Aiken".
