FOODSERVICE

Libbey®

FOODSERVICE

For 190 years, Libbey has been very proud of its position as North America's leading designer, manufacturer and marketer of high-quality glass tableware for the foodservice industry.

While Libbey is proud of its long history and tradition of providing superior quality products to the foodservice industry, it continually seeks to improve its products and processes. As new opportunities develop, Libbey works to create fresh new glassware designs, shapes, colors and patterns.

Today, it is widely recognized that Libbey is the leading producer of glass tableware for the foodservice industry in North America. And, with the addition of Royal Leerdam, Makers of Fine European Stemware, Luigi Bormioli glassware products, along with Syracuse China dinnerware, World Tableware flatware, holloware, buffetware and service accessories, and Traex plastic products, Libbey is now a leader in providing total tabletop solutions.

FRANÇAIS

Depuis 190 ans Libbey est fier d'être, en Amérique du Nord, le chef de file du design, de la fabrication et du marketing de la verrerie de première qualité pour l'industrie de la restauration.

Tout en étant particulièrement fier de sa longue histoire et sa tradition à offrir des produits de qualité supérieure à l'industrie de la restauration, Libbey ne cesse d'améliorer ses produits et ses processus. Avec l'avènement de nouvelles opportunités, Libbey s'efforce de créer des nouveautés dans les designs, formes, couleurs et modèles de verrerie.

De nos jours, Libbey est mondialement reconnu comme étant le premier producteur de service de verrerie pour l'industrie de la restauration en Amérique du Nord. De plus, depuis l'addition de Royal Leerdam, fabricants de verres à pied fins européens, la verrerie Luigi Bormioli, ainsi que des services de table en porcelaine Syracuse, des couverts de table, des plats de service, des services de buffet et des accessoires de service World Tableware et des produits en plastique Traex, Libbey est désormais le fournisseur numéroun des solutions de service de table complet.

ESPAÑOL

Durante 190 años Libbey ha mantenido con orgullo su posición de líder norteamericano en el diseño, la fabricación, y la comercialización de cristalería de primera calidad para la industria del restaurante.

Si bien Libbey se muestra orgulloso de su larga historia y tradición como proveedor de productos de excelente calidad a la industria del restaurante, constantemente busca la manera de superar sus productos y sus métodos. A medida que surgen nuevas oportunidades, Libbey se esfuerza en crear con nuevos diseños, formas, colores, y modelos.

En la actualidad, es ampliamente reconocido que Libbey es el productor de cristalería de mesa más importante de la industria del restaurante en Norte América. Además con la adición de Royal Leerdam, fabricantes de cristalería a pie fina europea, la cristalería de Luigi Bormioli, junto con la vajilla de porcelana Syracuse, las cuberterías, los artículos de cocina, el servicio de buffet y los accesorios de mesa de World Tableware y los productos en plástico Traex, Libbey ahora es un líder en ofrecer el servicio de mesa completo.

Luigi Bormioli
A Libbey FOODSERVICE Partner

since 1818

Libbey has taken bold steps since its creation in 1818. With innovation as its cornerstone, Libbey revolutionized glassmaking — the world's first machine-made stemware was automatically produced on Libbey equipment. Today, Libbey continues to invest in new state-of-the-art production equipment, allowing it to create the foodservice industry's most significant glassware introductions.

Libbey Foodservice sets the standard in the foodservice industry. Its customers have come to expect innovation as well as quality and consistency in its brands. It further reinforces its brand through its strong brand images.

Syracuse China is able to produce its pioneering dinnerware designs faster and more efficiently with investments such as

the new fast-fire kiln technology, and **World Tableware** is the leader in bringing the most distinctive flatware designs to the foodservice industry.

In December 2002, Libbey acquired **Royal Leerdam**, makers of fine European stemware, and **Traex**, a leading producer of warewashing racks, trays, and a host of other smallware products. Then in June 2006, Libbey completed the acquisition of **Crisa**, the largest glass tableware manufacturer in Mexico.

Libbey Foodservice also holds a distribution agreement with **Luigi Bormioli**, a manufacturer of fine Italian stemware and barware.

True to its nature, **Libbey Foodservice** never hesitates to set out on bold new directions with innovative, quality products that serve the world.

NEW CRYSTAL GLASS

The crystal glass of the company Luigi Bormioli has always been produced with the purest of raw materials, without the use of lead and with advanced technological processes. The glass thus manufactured presents an extremely high level of transparency and brilliance.

Different types of glass are rated according to an international classification.

The class to which each type of glass belongs is determined solely on the basis of the raw materials it contains.

In order, however, to obtain absolute transparency, purity and resistance, other extremely important factors are also involved, such as the technological processes employed. These properties can be only evaluated objectively through quantitative measures. Such measures are widely adopted by Luigi Bormioli.

Ever since the creation of the first crystal glass by our in-house research team, Luigi Bormioli has continued to invest in research.

After approximately eighteen months of tests, our Research Laboratories created a new type of glass (without lead), radically improving upon the properties of the current type of glass, particularly with regards to mechanical and chemical properties and enhancing considerably its optical properties.

This new material, named SON.hyx®, is obtained through advanced technological processes, and it is a high performance crystal glass with a sonority index (acoustic properties) typical of that of precious glass.

SON.hyx® crystal glass is one step ahead due to the fact that its properties are quantitatively measurable, excellent and deserving universal recognition.

OPTICAL PROPERTIES

SON.hyx® may be defined as a totally light permeable material as it is absolutely transparent and totally colorless. It thus possesses a lightness verging almost on the immaterial. This glass reaches a color efficiency (R) of the liquid contained in the stemglass equal to 99.99%. In fact, the light absorption through SON.hyx® is practically zero. The reflection index of SON.hyx® is approximately 9%, therefore the transmittance (T) is approximately 91% throughout the whole visible spectrum.

The light transmission through SON.hyx® crystal glass is substantially the same as the light transmission through pure quartz (totally transparent and colorless); this confirms the **perfect transparency** of SON.hyx® crystal glass.

MECHANICAL PROPERTIES

Mechanical resistance is markedly enhanced thanks to appropriate production processes.

Glassware made of SON.hyx® crystal glass have an improved resistance to mechanical shocks. In fact, laboratory tests have demonstrated the following improvements.

Due to these improved processes the surface of the glass does not have any weak points thus reducing the glass fragility and improving its mechanical resistance.

+98% Resistance to twists of the stems (Torque force applied while drying by hand with a cloth the bowl of the stemglass)

+37,5% Resistance of the rim of stemglasses and tumblers

+105% Resistance to mechanical shocks

CHEMICAL PROPERTIES

Laboratory tests have demonstrated that SON.hyx® crystal glass has an exceptionally high chemical homogeneity and resistance to industrial washing. After over **4,000** industrial washing cycles SON.hyx® crystal glass does not show any kind of visible alteration thus retaining all its initial properties.

Therefore, it may be sustained that if the correct conditions of use are applied, the chemical and mechanical properties of SON.hyx® crystal glass will increase the lifetime of glassware produced with this new high-tech crystal glass.

LUIGI BORMIOLI

Refining The Science & Art Of Enduring Crystal Elegance without lead

- 105% more resistant to mechanical shock than other glass*
- Shows no signs of clouding or streaking after 4,000 commercial dishwashing cycles
- 37.5% more resistant to rim chipping than other glass*
- 100% transparent and completely colorless
- 98% more flexible and can resist higher torque than other glass*

*Compared to Luigi Bormioli Non-SON.hyx glass

Wine Master by Libbey.
The right glass for the restaurateur.
Finally – the right combination
of beauty, durability,
and value for your
premium wine service.

Tips for enjoying wine to its fullest –

Wine is savored with all three senses – the eyes, the nose, and the palate.

- The eyes take in clarity, color, and consistency.
- The nose appreciates the intensity or delicacy of the bouquet.
- The palate interprets the harmony of taste, texture, and bouquet so that all of the components of a wine's character can be savored.

Important serving reminders –

- When serving wine, always hold the glass by its stem. Touching the bowl can affect the look and taste of fine wines.
- For perfect tasting, the glass should be one-third full.
- For sparkling wines or champagne, the glass should be two-thirds full.

Recommended wine-serving temperatures:

- Sparkling wines: 44°-48°F
- Mature and complex dry white wines: 44°-50°F
- Rosé and nouveau wines: 50°-53°F
- Young red wines with low acidity: 48°-50°F
- Structured red wines: 59°-62°F
- Aged and dry red wines: 61°-64°F
- For fine aged wines it is possible to go above 64°F

Important reminder –

Always wash stemware well with soap and water and rinse thoroughly. Any residue on the glass can detract from the taste and experience of wine or spirits.

Self-promotion is an important part of maintaining your market share in the competitive foodservice industry. Libbey can help you keep your name in front of your customers with **custom cresting**. We permanently fire your name and logo onto your glassware or china, creating a silkscreened enamel decoration that refuses to scratch, chip, or wash off.

Crested glassware and china provides you with an inexpensive way to make huge impressions on your customers. It adds variety and spark to your beverage service when used every day, and it becomes a memorable, cost-effective advertising vehicle when used as a giveaway or self-liquidator.

Just select the colors you want from our standard color palette – custom colors are available upon request. Give us the name and/or logo you want on your glassware. We'll take it from there, designing and producing the final artwork and applying the approved design to your specifications.

Libbey's + **DuraTuff**® glassware

Increases Resistance to Thermal and Mechanical Shock.

Libbey's exclusive DuraTuff treatment is a special thermal after-process for "pressed" tumblers and stemware that produces durable glassware with prolonged service life for the foodservice industry. Look for the DuraTuff name embossed on all Libbey DuraTuff tumbler and stemware products such as new Élan, Endeavor, Gibraltar, Winchester, Paneled Tumblers, Inverness, Dakota, Everest and Casual Coolers.

endeavor™ DuraTuff®

Libbey's new Endeavor™ tumbler line is fully stackable requiring less counter space. The inner ledge enables a smooth outer profile. A perfect compliment for your cocktail creations.

Pyramiding is still a better way to stack and store glassware.

La méthode pyramidale continue d'être la meilleure façon d'empiler et de ranger la verrerie.

El apilado en forma de pirámide es todavía una mejor manera de apilar y guardar la cristalería.

Pyramiding is still a better way to stack and store glassware.

La méthode pyramidale continue d'être la meilleure façon d'empiler et de ranger la verrerie.

El apilado en forma de pirámide es todavía una mejor manera de apilar y guardar la cristalería.

Libbey's ★ **HEAT-TREATED** *glassware*

Libbey's heat-treated tumblers and stemware are created through a special heating and rapid cooling process after the glass is formed. This secondary process on "blown" glassware is performed only on the upper portion of the glass where

most abuse occurs. Libbey's heat-treated glassware offers increased resistance to thermal and mechanical shock.

Recommended for Fast Service Cycle Operations.

handmade pitchers

These items are hand-made. As such, some small bubbles and other dimensional variations will be present. The capacities are noted as minimum ounce capacities and could vary upward considerably. They should not be used as a standard of measure.

These variations are inherent in the art of hand-made glassware and should not be seen as defective.

Please consider this prior to purchasing.

Careful handling and use is required with all of Crisa's fine hand-made pitchers.

*6 Inner Packs
Packed 2 Each

This Punch Bowl is hand-made. As such, small bubbles and other variations may be present. This is an inherent part of the hand-made process and should not be regarded as flawed.

Exercise caution when using.

RECOMMENDED PRACTICES

- A. To use glass with ice or iced beverage: Always pre-chill, from room temperature, with cool tap water slowly before exposing to extreme cold conditions.
- B. To use glass with hot beverage or food: Always preheat slowly from room temperature, with warm water before exposing to extremely warm conditions.
- C. Cleaning: Always bring glass to room temperature prior to cleaning and avoid sudden extreme changes in temperature of the glass. Failure to do so may result in damage.

With proper care, this hand-made item will perform well in service for many years.

Ashtray	minimum 2 to a room
Floral Accessories i.e. Bud Vase	minimum 1 to a room

china selection

How Much China Do You Need?

To determine the quantity of each item, multiply the number of seats times the ordering factor shown for each item. Then, order the closest dozen quantity. Example: A 5½" plate for a 125 seat cafeteria = 6 x 125 = 750 pieces (63 dozen).

Item	Suggested Use	Fast Restaurant	Dining	Banquet/ Cafeteria	Catering	Institutional
5½" - 6¾" Plate	Bread & Butter, Desserts Bowl or Bouillon Underliner	1½	2	6	2	2
7½" - 7⅞" Plate	Sandwiches, Salad, Desserts Underliner for Grapefruit, Salad Bowls	1½	2	•	2	•

warewashing & storage rack system

TRAEX®A Libbey **FOODSERVICE** Company

Together, Libbey and Traex provide existing and potential customers with a broad range of quality products in the foodservice industry.

RACK MAX® RACK-MASTER® FULL-SIZE SYSTEM

- 1. Better Washing and Drying!**
- 2. Protects Expensive Glassware/Saves Money!**
- 3. Design Options Provide Exactly What You Need!**

PATENT PENDING HONEYCOMB DESIGN

Features 20% -33% more glassware compartments than standard 9, 16 and 25 compartment racks.

Exclusive design accommodates the most popular sizes of glassware in the foodservice industry. The newest addition to the line, the Rack Max® 5 compartment extender, especially designed to handle oversized items, accommodates glasses with diameters up to 7.31". The new Rack Max® 12, accommodates glasses 4.31" - 4.93" in diameter, the Rack Max® 20 accommodates glasses 3.53" - 3.93" in diameter, and the Rack Max® 30 accommodates glasses 2.94" - 3.20" in diameter.

- **Save Money**

Honeycomb compartment cradles glassware, minimizing breakage.

- **Cleaner Glassware**

Open profile allows top-to-bottom and side-to-side washing action.

- **Increased Throughput**

Five or six smaller compartments to handle flatware, salt shakers, ramekins, etc.

- **Faster/Cleaner Drying**

Open profile allows more air to circulate through the rack.

- **Prevent Breakage**

Double-wall construction absorbs impact.

- **100% Extra Protection**

Built in base rack dividers provide 100% vertical glassware protection.

- **Easy Identification**

Exclusive Code-A-Clips™ are available in many different silhouettes and descriptions to label rack contents.

- **Custom Fit**

Two styles of extenders (COMPARTMENT extenders and OPEN extenders) provide the best fit possible.

- **Convenient Handling**

Rack-Master racks have handles on all four sides and can enter a dishwasher from any side.

- **Durable Construction**

Reinforced index strips withstand the abuse of conveyor dishwashing machines.

- **High-Quality Material**

Co-polymer plastic gives rack better chemical, impact and heat resistance. Safe up to 190°F.

- **Conceal Scratches**

Textured surface diminishes the appearance of scratches.

- **Stackability**

Rack-Master racks stack with nearly all major competitors' rack.

LP means Low Profile.

OE means Open Extender.

NS means product information is not otherwise shown in this catalog.

Note:

**TR-13 is compatible with all standard extenders (TR-A, TR-B, TR-C, TR-D, TR-E, TR-F, TR-J, TR-K, TR-G, TR-H, and TR-M).

TR-A Extender can be added for additional height to protect glassware when loaded racks are stacked one upon another.

Any additional standard compartment extenders can be added to any rack to further heighten and compartmentalize your assembled racks.

Other assembled rack options are available because the TRAEX® Rack-Master® system has the flexibility to accommodate virtually any glassware.

*Available in beige only.

**Available in beige only and cannot be imprinted.

two ways to order glass racks

1. Measure

The maximum diameter of your glass should be smaller than the rack compartment size and will determine the proper rack to use. The height will determine the number of extenders needed and should be shorter than the rack's compartment height. Refer to the **Glass Rack Guide** on page 72.

2. Cross-Reference

Cross-reference guides are available for top glass manufacturers from your TRAEX representative.

get a free rack-master rack-rule™!

how to order color racks

- 1. Entire Rack in one color -** To order an entire rack (base and extenders) in one color such as red(02), add the suffix to the end of the rack part number such as rack no. (TR-6BBB) - color suffix (02): TR-6BBB-02.
- 2. Single Extender in one color -** To order a beige rack with *only the top extender in one color* such as red(02), add a "9" plus the color suffix to the rack part number such as rack no. (TR-6BBB) - (9) and color suffix (02): TR-6BBB-32902.
- 3. All Extenders in one color -** To order a green *base rack with all extenders in one color* such as red(02), add a "8" plus the color suffix to the rack part number such as rack no. (TR-6BBB) - (8) and color suffix (02): TR-6BBB-19802.

Rack-Master® racks and extenders are available in 5 vibrant colors plus black and standard beige. To specify a color, add the color number (-02, -06, etc.) after the product number.

Note: You can customize racks with color base and extenders in **any combination**. Ask your sales representative for assistance when placing your order.

sales training

Looking for ideas? You're invited to make good use of Libbey's lending library. Included are a variety of professionally produced video tapes developed to reflect your sales force's knowledge of Libbey glassware products and to acquaint your customers with Libbey quality. Everything is covered, from product strengths, custom cresting and breadth of line—to marketing, merchandising, and glassware handling tips and trends. Look over the listing and select the tape(s) you want to view. Your Libbey representative will help you order them.

Title	Time
Libbey Custom Cresting	9 minutes
Libbey's Line is Longest	7 minutes
A Better Answer (Training Program)	12 minutes
A Toast to Successful Marketing	28 minutes
A Guide to Glass Handling	13-1/2 minutes
A Shattering Experience	14 minutes

coding

✚ DuraTuff®. The Libbey DuraTuff® treatment is a special thermal afterprocess for "pressed" tumblers and stemware such as Gibraltar, Winchester, Inverness, Paneled Tumblers, Everest and Dakota. The DuraTuff® process is performed only on the upper portion of pressed tumblers and stemware to increase their resistance to thermal and mechanical shock.

Libbey's DuraTuff® process produces durable glassware with prolonged service life for the foodservice industry. Look for the DuraTuff® name embossed on all Libbey DuraTuff® products.

Libbey now offers DuraTuff® plates and bowls which are treated over the entire surface of the product.

★ Heat-Treated Glassware. Libbey's heat-treated tumblers and stemware are created through a special heating and rapid cooling process after the glass is formed. This secondary process on "blown" glassware is performed only on the upper portion of the glass where most abuse occurs. Libbey's heat-treated glassware offers increased resistance to thermal and mechanical shock and is recommended for fast service cycle operations.

● Safedge® Rim Guarantee. For over 70 years, Libbey's proven commitment to quality has been backed by our well-known guarantee, "a new glass if the rim of a Safedge® glass chips." If the rim of any glass covered by the Safedge® guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased. Of course, this guarantee does not cover breakage.

■ Safedge® Rim and Foot Guarantee. If the rim or foot of any one-piece stemware item chips, Libbey guarantees to replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased. This guarantee covers such lines as Estate, Chivalry, Embassy Royale, Embassy, Lexington, Catalina, Teardrop, etc. This guarantee does not cover breakage.

▲ Finedge®. Libbey's Finedge® glassware features a minimum bead and is available on a variety of tumblers and stemware. This finely rimmed glassware brings subtle beauty to any establishment.

✖ Sheer Rim/D.T.E.® Libbey's SheerRim/D.T.E.® (Dura Temp Edge) stemware and tumblers feature a beadless edge which is first cracked-off then polished to produce a fine, yet durable edge. This creates a combination of elegance and affordability in glassware for operators looking to upgrade their beverage service, while still maintaining longer service life. Sheer Rim/D.T.E.® Tumblers and Stemware are guaranteed against chipping of the rim.

◆ Luigi Bormioli. The entire Bormioli collection has been developed to provide a superior, resonant blown glass in a quality and purity rivaling that of lead crystal.

◆ Luigi Bormioli SON.hyx® Guarantee. If the rim or foot of any Luigi Bormioli SON.hyx product chips, Libbey will replace the glass. This guarantee does not cover breakage. Please contact your Libbey Foodservice Sales Representative for details.

Θ Hand Blown. Manufactured by hand, giving the glass uniquely individual characteristics. The capacities are noted as minimum ounce capacities and could vary upward considerably. They should not be used as a standard of measure.

Dimensions/Capacities

(listed under each item)

"H" means height.
"T" means top diameter.
"B" means bottom diameter.
"D" means maximum diameter.

H-T-B dimensions are listed to the nearest 1/8 inch. "D" dimension is listed to the higher 1/8 inch. *Listed dimensions should not be construed as specifications.**

Lined versions of items have same dimensions as unlined glass.

The individual product images reproduced throughout this catalog are shown at approximately 25% actual size.

Glassware capacities are approximate and should not be used as a standard of measure. All fluid capacities are figured to overflow, except for those items decorated with a stated capacity line. Our capacity specifications allow for a tolerance of plus or minus 5%.

Example: a 12 oz. rocks glass could range in overflow capacity from a minimum of 11.4 ounces to a maximum of 12.6 ounces. For more information regarding product specifications, contact your Libbey representative.

1 U.S. fl. oz. = 29.5727 ml. = 1.04084 Imp. fl. oz.
1 Imp. fl. oz. = 28.4123 ml. = 0.96075 U.S. fl. oz.

Hand Made product capacities are noted as minimum ounce capacities and could vary upward considerably. They should not be used as a standard of measure.

✚ **DuraTuff®** Le traitement DuraTuff® de Libbey est un procédé thermique spécifique destiné aux gobelets et verres à pied “pressés” tels que Gibraltar, Winchester, Inverness, Paneled Tumblers, Everest and Dakota. Le traitement DuraTuff® n’est appliqué que sur la partie supérieure des gobelets et des verres à pied pressés afin d’augmenter leurs résistances aux chocs thermiques et mécaniques.

Le traitement DuraTuff® de Libbey permet de produire des articles durables et solides pour l’utilisation intensive en restauration. La marque DuraTuff® est gravée sur tous les produits DuraTuff® de Libbey: exigez-la.

Libbey vous offre également des assiettes et coupes DuraTuff® qui sont traitées sur toute la surface du produit.

★ Verrerie trempée.

Les gobelets et verres à pied trempés de Libbey sont fabriqués grâce à un processus spécial de réchauffage et de refroidissement rapide, après que le verre soit mis en forme. Ce traitement spécifique destiné à la verrerie “soufflée” n’est appliqué que sur la partie supérieure du verre, qui se trouve être la plus vulnérable. La verrerie trempée de Libbey offre une résistance accrue aux chocs thermiques et mécaniques. Elle est recommandée pour les utilisations intensives des cycles de service rapide.

● Garantie Safedge® du bord.

Depuis plus de 100 ans, l’attachement permanent de Libbey à la qualité se prouve par notre célèbre garantie, “un nouveau verre si le bord d’un verre Safedge® s’ébrèche”. Libbey remplacera ou remboursera la valeur du verre, il vous suffit pour cela de le renvoyer au distributeur où l’achat a été effectué. Bien entendu, *cette garantie ne couvre pas la casse.*

■ Garantie Safedge® du bord et du pied.

Si le bord ou le pied d’un verre à pied fabriqué d’une seule pièce venait à s’ébrécher, Libbey en garantit son remplacement ou son remboursement lorsque celui-ci est renvoyé au distributeur où l’achat a été effectué. Cette garantie couvre les gammes telles que Estate, Chivalry, Embassy Royale, Embassy, Lexington, Catalina, Teardrop, etc. *Cette garantie ne couvre pas la casse.*

▲ **Finedge®** La verrerie Finedge® de Libbey propose des articles à bord avec un bourrelet plus fin et est disponible sur une large gamme de gobelets et de verres à pied. Cette verrerie à bords fins apporte une beauté subtile à tout établissement.

✚ Sheer Rim/D.T.E.®

Les gobelets et les verres à pied Sheer Rim/D.T.E.® (Dura Temp Edge) de Libbey offrent un bord sans bourrelet. Le bord de ces verres est coupé à froid avant d’être poli afin d’obtenir un bord très fin et néanmoins particulièrement solide. Cette méthode de fabrication permet d’allier élégance et prix abordable pour une gamme de verrerie destinée aux établissements soucieux de la qualité du service et de la durée de vie de leur verrerie. Les gobelets et verres à pied Sheer Rim/D.T.E.® sont garantis contre toute ébréchure du bord. *Cette garantie ne couvre pas la casse.*

◆ Luigi Bormioli.

Toute la collection Bormioli a été créée pour offrir un verre soufflé d’une sonorité supérieure dans une qualité et une pureté rivalisant avec celles du cristal de plomb.

◆ Garantie Luigi Bormioli SONhyx®.

Si le bord ou le pied d’un produit Luigi Bormioli SONhyx s’écaille, Libbey remplacera le verre. Cette garantie ne s’applique pas à la casse. Veuillez contacter votre représentant Libbey Foodservice pour davantage de précisions.

Θ **Soufflé à la main.** Fabrication artisanale donnant au verre des caractéristiques individuelles uniques. Les contenances sont notées comme des contenances en onces minimum et pourraient varier considérablement à la hausse. Ne pas les utiliser comme norme de mesure.

Dimensions/Capacités

(indiquées sous chaque article)

“H” représente la hauteur.

“T” représente le diamètre supérieur.

“B” représente le diamètre inférieur.

“D” représente le diamètre maximum.

Les dimensions H, T, B, sont indiquées au 1/8 pouce près. La dimension “D” est indiquée au 1/8 pouce supérieur.

*Les dimensions indiquées ne devraient pas être interprétées comme spécifications.**

Les versions des articles avec lignes ont les mêmes dimensions que ceux sans lignes.

Les images de produits individuels reproduites tout au long de ce catalogue sont à une échelle de 25% de la taille réelle.

Les contenances des verres sont approximatives et ne doivent pas être utilisées comme norme de mesure. Toutes les contenances sont indiquées pour déborder à l’exception des articles décorés d’une ligne de contenance précisée. Nos spécifications de contenance prévoient une tolérance de plus ou moins 5 %.

Par exemple : un verre droit de 12 oz pourrait avoir une contenance de débordement de 11,4 onces (minimum) à 12,6 onces (maximum). Pour de plus amples informations sur les spécifications des produits, contactez votre représentant Libbey.

1 oz. fl. U.S. = 29,5727 ml = 1,04084 oz. fl. Impériale
1 oz. fl. Impériale = 28,4123 ml = 0,96075 oz. fl. U.S.

Les contenances des produits faits à la main sont notées comme des contenances en onces minimum et pourraient varier considérablement à la hausse. Ne pas les utiliser comme norme de mesure.

✚ DuraTuff®

El tratamiento DuraTuff® de Libbey es un proceso térmico al que se someten los vasos y las copas prensadas Gibraltar, Winchester, Inverness, Paneled Tumblers, Everest and Dakota. El proceso DuraTuff® se aplica solamente a la parte superior de los vasos y copas para aumentar la resistencia al choque térmico y mecánico.

El proceso DuraTuff® de Libbey produce cristalería durable con una vida de servicio extendida para la industria del restaurante. Busque la marca DuraTuff® en todos los productos DuraTuff® de Libbey.

Libbey ahora ofrece platos y fuentes DuraTuff® con el tratamiento aplicado sobre toda la superficie del producto.

★ Cristal templado.

La cristalería templada de Libbey ha sido fabricada a través de un proceso especial de calor y enfriamiento rápido después de que el vidrio se forma. Este proceso secundario en vidrio soplado se aplica en la parte superior de la pieza donde ocurren la mayoría de los abusos. La cristalería templada de Libbey ofrece mayor resistencia al choque térmico y mecánico y se recomienda para operaciones de ciclos de servicio rápido.

● **Garantía de borde Safedge®.** Por más de 70 años, el compromiso de calidad de Libbey ha sido respaldado por nuestra conocida garantía “un vaso nuevo si el borde Safedge® se astilla”. Si el borde de cualquier pieza Safedge® cubierta por la garantía se astilla, Libbey se compromete a reemplazar la pieza o reembolsar el importe del artículo a través del distribuidor al que se le hizo la compra originalmente. Esta garantía no cubre roturas.

■ **Garantía de borde y pie Safedge®.** Si el borde o pie de cualquier copa de una sola pieza se astilla, Libbey garantiza reemplazar la pieza o reembolsar su costo a través del distribuidor al que se le hizo la compra originalmente.

Esta garantía cubre las líneas Estate, Chivalry, Embassy Royale, Embassy, Lexington, Catalina, Teardrop, etc. Esta garantía no cubre roturas.

sutil imagen de

▲ **Finedge®.** La cristalería Finedge® de Libbey ofrece un borde fino y está disponible en una gran variedad de vasos y copas. Esta cristalería con borde fino proporciona una belleza a cualquier negocio.

✖ Sheer Rim/D.T.E.®

Las copas y vasos Sheer Rim/D.T.E.® (Dura Temp Edge) de Libbey se caracterizan por un borde

obtenido mediante un proceso en el que primero se corta el filo del producto y posteriormente se pule para producir un borde muy fino pero también durable. Esto crea una combinación de elegancia y de costeabilidad en la cristalería para los que están mejorando el servicio de sus bebidas, y al mismo tiempo prolonga la vida útil de los productos. Los vasos y copas Sheer Rim/D.T.E.® son garantizados contra despostilladuras.

◆ Luigi Bormioli.

La colección completa Bormioli ha sido creada para ofrecer una superior calidad y pureza de vidrio soplado resonante que puede competir con el cristal emplomado.

◆ Garantía de Luigi Bormioli SON.hyx®.

Si la base o el pie de cualquier producto Luigi Bormioli SON.hyx se astilla, Libbey reemplazará el cristal. Esta garantía no cubre roturas. Por favor, contacte a su Representante de Ventas de Libbey Foodservice para detalles.

θ **Soplado a mano.** La fabricación artesanal brinda al vidrio características individuales únicas. Las capacidades constan como capacidades mínimas en onzas y pudieran variar hacia arriba considerablemente. Éstas no deben ser utilizadas como una norma de medición.

Dimensiones/Capacidades (Alistadas bajo cada artículo)

“H” significa la altura.
“T” significa el diámetro superior.
“B” significa el diámetro inferior.
“D” significa el diámetro máximo.

Las dimensiones H-T-B están alistadas a la más próxima 1/8 pulgada. La dimensión “D” está alistada a la próxima 1/8 pulgada más alta. *Las dimensiones alistadas no deben considerarse especificaciones.**

Las versiones con línea tienen las mismas dimensiones que las que no la tienen.

Las imágenes de los productos individuales reproducidas a lo largo de este catálogo están a una escala aproximada del 25% del tamaño real.

Las capacidades para cristalería son aproximadas y no deben ser consideradas como un estándar de medida. Todas las capacidades de fluidos son calculadas para desbordarse, con excepción de los artículos decorados con una línea de capacidad indicada. Nuestras especificaciones de capacidad permiten una tolerancia de 5 % más o menos.

Por ejemplo; un vaso cóctel de 12 onzas puede variar entre una mínima de 11.4 onzas hasta una máxima de 12.6 onzas en su capacidad de desbordarse. Para mayor detalles sobre las especificaciones de productos, póngase en contacto con su representante Libbey.

1 oz. fl. EE.UU. = 29.5727 ml. = 1.04084 oz. fl. Imp.
1 oz. fl. Imp. = 28.4123 ml. = 0.96075 oz. fl. EE.UU.

Las capacidades de los productos hechos a mano constan como capacidades mínimas en onzas y pudieran variar hacia arriba considerablemente. Éstas no deben ser utilizadas como una norma de medición.

These rulers can be helpful in checking glass dimensions for glassware verification, storage tray requirements, etc.

Ces règles permettent de mesurer la taille des verres de façon à pouvoir identifier un verre en particulier, les bacs de rangement requis, etc. Estas reglas facilitarán la medición de vasos para identificar su vaso particular, y los requisitos para bandejas de almacenaje, etc.
