FOODSERVICE

No other china company offers you these advantages:

Hospitality Express –
380 items of our most
popular patterns in 36 Hours
You can depend on Syracuse China and
your distributor to get you the product
you need, when you need it, wherever
you are in the world. (Allow for transit.)

Syracuse Select
A select group of popular patterns
available to ship in 30 days — or less!

Made-To-Order
An archive of historic Syracuse patterns
available on a made-to-order basis.

Full Range of Undecorated Accessories
Enhance your tabletop with complementary items!

Best Quality Available
A glazed foot and the most durable
glaze in the industry!

Syracuse
China
Company
Three-Year
No-Chip
Warranty:

We now warrant Syracuse China Company products against edge chipping for three years from date of purchase and will replace or provide equivalent substitutes one-for-one at no charge for any piece found to be defective.

This limited warranty is good only if the items have chipped under normal usage.

Syracuse China reserves the right to determine normal usage. The warranty does not cover breakage.

Claims must be submitted in writing to:

Syracuse China Company
Quality Control Department
2801 Court Street • Syracuse, NY 13208
and be accompanied by the item(s) and
a copy of the authorized Syracuse China
distributor's invoice, dated within three
years of the claim.

A written response or replacement
authorization will be sent to the claimant.
Return freight is the responsibility
of the customer. Replacements are
shipped freight prepaid.

SYRACUSE CHINA

Our story

Syracuse China is one of the oldest and most respected brands in the china industry. It was founded in 1871 as the Onondaga Pottery Company (O.P.Co.) in Geddes, New York (now a part of Syracuse).

With a reputation for being a maverick, O.P.Co. was located far from New Jersey and Ohio centers of ceramic manufacture. Though there were no natural sources of clay or coal in Central New York, and no clay workers in the region, raw materials and fuel were easily transported on the Erie Canal and the railroads.

Until 1884, the ware produced by the facility was undecorated. That year, Elmer Walter established the Boston China Decorating Works across from the pottery, giving the company access to a designer, printer and hand decorator. In 1886, a fire destroyed the decorating shop and the O.P.Co. hired Walter and his employees, establishing one of the earliest in-house decorating departments in the industry.

In 1885, James Pass joined O.P.Co. as superintendent, later becoming president. It was Pass who made Syracuse a national leader in ceramic research. In 1888, he developed America's first truly vitreous china body. His new ware won the medal for translucent china at the World's Columbian Exposition in Chicago in 1893. Two years later, the name "Syracuse China" appeared in the backstamp of this revolutionary china. From then on, all ware was, and still is, made of vitreous "Syracuse China."

Following Pass's death in 1913, Bert Salisbury became president and led O.P.Co. to a new age of marketing and advanced technology. In 1921, the company built a new hotel ware factory on Court Street – the first linear, one-floor plant in the American china industry. In 1966, O.P.Co. officially changed its name to The Syracuse China Company.

As the company marked its 100th anniversary in 1971, processes of change already underway both inside and outside of the business shaped its entry into a second century as an industry leader. After four generations of direct involvement in the business, family ownership ended. New management purchased the assets of the old company and formed the new Syracuse China Company on September 30, 1971.

During the next 24 years, Syracuse would change hands 3 times.

In April 1978, Syracuse China became a wholly owned subsidiary of CPI, Canadian Pacific Investments LTD, a multi-billion dollar corporation with successful worldwide investments in oil and gas resources, mines and minerals, forest products, iron and steel, real estate, hotels and foodservices, finance and other diversified business. Syracuse China prospered despite intensifying challenges from overseas competition.

The company expanded its presence by acquiring the Mayer China Company in 1984 and Shenango Pottery in 1988. The Syracuse China Company closed both Pennsylvania plants and made the ware of all three companies at its Syracuse plant by the early 1990's.

In 1989, CPI put Syracuse China on the market and it was purchased by the Susquehanna-Pfaltzgraff Company of York, Pennsylvania.

Then, in 1995, Libbey Inc. of Toledo, Ohio purchased the Syracuse China Company from Pfaltzgraff to complement its strong presence in the foodservice industry. Its investment in Syracuse has made it one of the world's leading suppliers of commercial china for the foodservice industry.

With 137 years' experience and continuity, Syracuse China leverages its successes with innovative new product introductions, specialty items, and technological advances for today's markets.

BOLD NEW DIRECTIONS

The Libbey Foodservice family of distinctive products covers your entire table—
Libbey & Crisa glassware, **Royal Leerdam** and **Luigi Bormioli** stemware, **Syracuse** china,
World Tableware flatware, holloware, and dinnerware, and **Traex** warewashing and smallwares.

since 1818

Libbey has taken bold steps since its creation in 1818. With innovation as its cornerstone, Libbey revolutionized glassmaking — the world's first machine-made stemware was automatically produced on Libbey equipment. Today, Libbey continues to invest in new state-of-the-art production equipment, allowing it to create the foodservice industry's most significant glassware introductions.

Libbey Foodservice sets the standard in the foodservice industry. Its customers have come to expect innovation as well as quality and consistency in its brands. It further reinforces its brand through its strong brand images.

Syracuse China is able to produce its pioneering dinnerware designs faster and more efficiently with investments such as

the new fast-fire kiln technology, and **World Tableware** is the leader in bringing the most distinctive flatware designs to the foodservice industry.

In December 2002, Libbey acquired **Royal Leerdam**, makers of fine European stemware, and **Traex**, a leading producer of warewashing racks, trays, and a host of other smallware products. Then in June 2006, Libbey completed the acquisition of **Crisa**, the largest glass tableware manufacturer in Mexico.

Libbey Foodservice also holds a distribution agreement with **Luigi Bormioli**, a manufacturer of fine Italian stemware and barware.

True to its nature, Libbey Foodservice never hesitates to set out on bold new directions with innovative, quality products that serve the world.

Custom Information

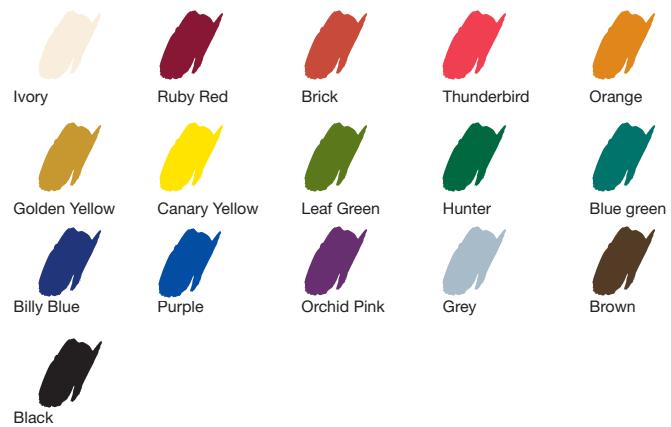

General Product
Information

COLOR CHART

Underglaze colors

Overglaze (OG) Lead Free colors

Custom colors and precious metals (microwavable gold, burnished gold, platinum and burnished palladium) line and cresting treatments are also available upon request. The colors reproduced here are approximate due to printing limitations, but they give you an excellent idea of the range of ceramic colors available. Call your Syracuse China representative for more information.

CUSTOM DECORATING

We invite you to commission our award-winning Custom Design Studio to create an exclusive decoration that clearly expresses your establishment's individuality. The samples shown here represent only a few of the thousands of Made-To-Order designs we have produced over the years.

Syracuse products can be decorated at Syracuse China by choosing a color from the color charts shown at left.

Proper Care and Handling

- Avoid low-temperature, high-detergent washers
- Avoid abrasive pads
- Avoid metal pads, steel wool, or abrasive cleaners
- Avoid using china or metal utensils for scraping dishes

Overglaze colors wear better than Overglaze precious metals. Syracuse recommends Antique Gold, which has a shimmer like burnished gold, but contains no precious metals. Antique Gold is recommended for decoration in the well area.

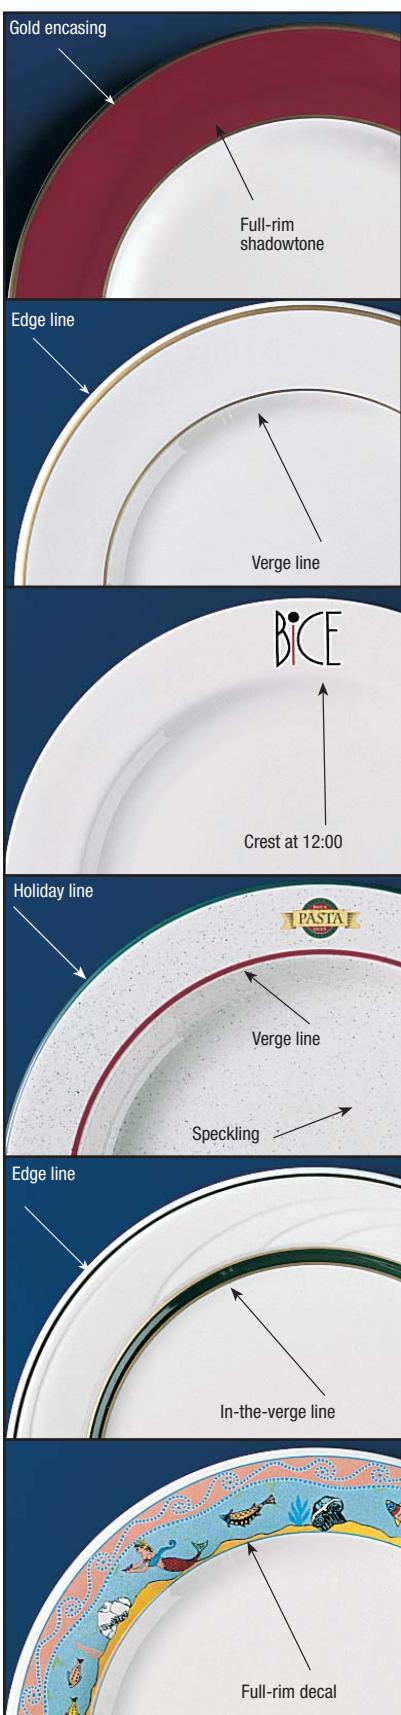

Syracuse®
CHINA

A Libbey FOODSERVICE Company

CUSTOM CHINA DETAILS

Line and decoration positioning

Cresting

Custom cresting is a process of applying your operation's logo onto the china.

Please supply the following to your Syracuse representative:

- camera-ready artwork
- digital files: Adobe Illustrator (.eps), Adobe Acrobat (.pdf), or CorelDraw (.cdr) files
- color swatches or PMS numbers

Bands

5/32"
3/16"
1/4"
5/16"

Lines

1/32"
1/16"
3/32"
1/8"

Note: Bands $\frac{3}{16}$ " or wider will be subject to streaking. Bands trimming another color should be no less than $\frac{1}{16}$ ".

Design

Our designers are also available to custom design an original decoration to coordinate with your decor and tabletop.

Please supply any of the following to your Syracuse representative:

- concept sketches
- written ideas
- pictures
- color and fabric swatches
- menus

Lead times

Design

- Up to two weeks after request and artwork are initiated

Production

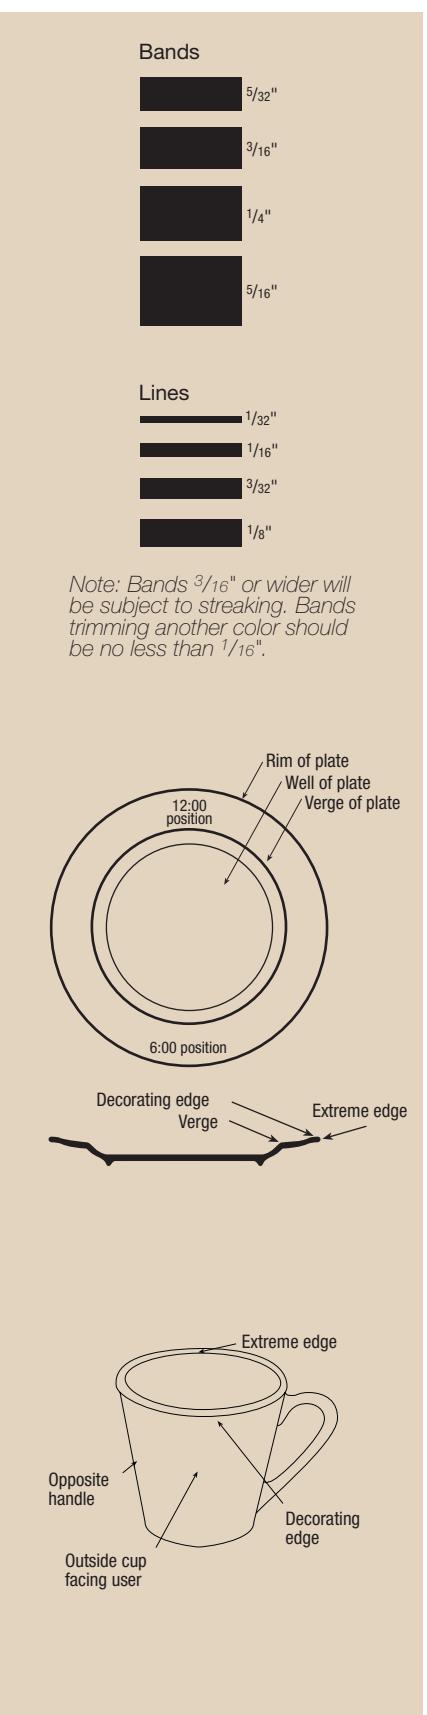

After custom design has been approved and returned to Syracuse China:
45 – 60 days. Custom color development will add two weeks to production time.

Minimums

Initial order

- 15 dozen per item (6 dozen per item on entree/pasta bowls). Call your Syracuse representative for details.
- Item quantities of 24 dozen or more are subject to a 10% overage/shortage. Item quantities of less than 24 dozen are subject to a 20% overage/shortage.

For additional information regarding design consultation, delivery information, minimum order requirements, and custom sample request forms, please contact your Syracuse China representative.

C H I N A S E L E C T I O N

How Much China Do You Need?

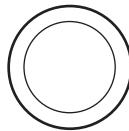

To determine the quantity of each item: multiply the number of seats times the ordering factor shown for each item. Then, order the closest dozen quantity. Example: A 5½" plate for a 125-seat cafeteria = 6 x 125 = 750 pieces (63 dozen).

Item	Suggested Use	Fast Restaurant	Dining	Banquet/Cafeteria	Catering	Institutional
5½" - 6½" Plate	Bread & Butter, Desserts, Bowl or Bouillon Underliner	1½	2	6	2	2

China Selection – “As Easy As 1-2-3!”

With such a wide range of shapes and patterns available through Syracuse China's Hospitality Express Program, it's easy to select just the right shape and pattern to meet your needs.

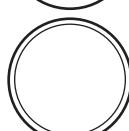

1. Choose a shape

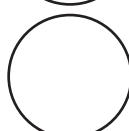

Wide rims show off smaller portions and require ample tabletop space.

Medium rims are versatile and allow flexibility in portion control.

Narrow rims provide maximum food service area. They also accommodate smaller tables and have a casual flair.

Coupe shapes have no rim at all. Contemporary in appearance, they offer maximum surface area.

2. Add design and/or color

Carving on the rim brings visual interest to your tabletop with subtle design elements embossed into the rim. Patterns draw on your decor to further enhance your tabletop. Lines and bands frame your food with a clean, simple design. Florals and geometrics help set a tone and add excitement, whether traditional or contemporary.

3. Consider other factors

Plate Covers – China dimensions vary slightly. Send us one of your plate covers; we'll verify that your new plates fit them. If you're buying a new service, we'll provide you with samples to ensure new covers fit properly.

Self-Leveling Equipment and Pellet Systems – China retains heat and cold best, while offering superior stackability. Syracuse China should verify exact sizing of your plates.

Stackability – Bear in mind the size and type of your storage space. Never stack items that were not designed to be stacked.

Ask the tabletop expert

For additional assistance and answers to your questions, consult with your tabletop expert – your Syracuse China distributor!

T R A E X®

DINNERWARE WAREWASHING AND HANDLING

Plate Crate® All-in-One System

Traex® offers 22 different Plate Crates® that are perfect for washing, storing, and transporting china. The Plate Crate® All-in-One System consists of a TR-1 base rack and wire grids that snap into TR-A "open" extenders. They are available in seven stock colors.

Rack-Master® TR-16

Holds 25 cups in 3.53" square compartments
and has a tilt bar for drainage.

New

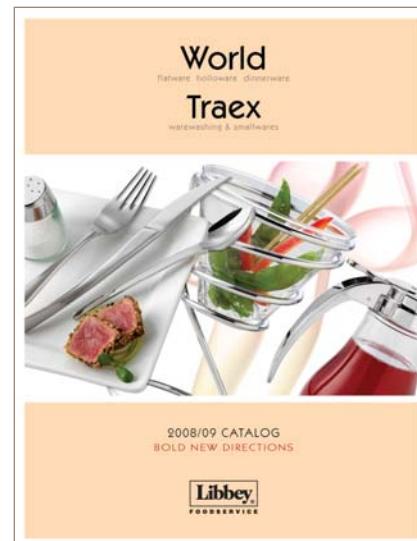

Adjustable Dish Caddy

The Adjustable Dish Caddy adjusts from the top rather than the bottom. Designed to store under counters, it has a rotational molded body, dual side handles, and two casters with brakes. Accommodates plates or bowls from 4½" to 12½".

Traex® offers a variety of quality products for warewashing and handling.

For availability and complete details, see the
**2008/09
World Tableware/
Traex® Catalog.**

Less Breakage
Cleaner Dishes
Faster/Cleaner Drying
Convenient Handling
Shorter Lead Time
Reliability
Durability, High-Quality

Code-A-Clips™ are also available in a wide assortment of colors, text, and silhouettes for even more ease in ware identification.

CHINA HANDLING

Syracuse China must be manufactured to meet the highest possible quality standards to withstand the daily rigors of the hospitality industry. Commercial china, like any equipment in your establishment, requires proper care and maintenance in order to maximize the return on your dinnerware investment.

Syracuse China produces durable commercial china dinnerware designed to perform longer. How long will depend on how well you handle and care for your tableware investment.

By following a simple, common-sense China Care Program, your Syracuse commercial china will deliver years of attractive, durable, and profitable service. Below is a quick reference guide to the five most common problem areas related to dinnerware failure. Take the time to review these problems and their causes within your operation and make it a point to eliminate them as you develop your own China Care Program.

The Problem: Breakage or Chipping

Check for these causes

- Using metal trays, metal bus boxes, or improper racks
- Overloading bus boxes & dish racks
- Piling heavy items on lighter items
- Using other china or metal utensils to scrape dishes
- Stacking china too high
- Nesting cups
- Dropping china into self-leveling dispensers
- Mixing sizes in self-leveling dispensers
- Improper loading in dish racks
- Lack of protective matting on floor of dishwashing area
- High water pressure in dish machine
- No rubber guards on disposal unit or dishwashing machine
- Hand-washing operation

The Problem: Scratches or Metal Marking

Check for these causes

- Using metal trays, metal bus boxes, or improper racks
- Overloading bus boxes & dish racks
- Scouring with metal pads, steel wool, or abrasive cleansers
- Using other china or metal utensils to scrape dishes
- Stacking hot, wet china
- Galvanized sheet metal on scraping tables
- Not regularly cleaning stainless steel dish tables

The Problem: Excessive Glaze Wear

Check for these causes

- Scouring with abrasive pads or cleansers
- Using other china or metal utensils to scrape dishes
- Overworking china because inventory is inadequate

The Problem: Stains or Discoloration

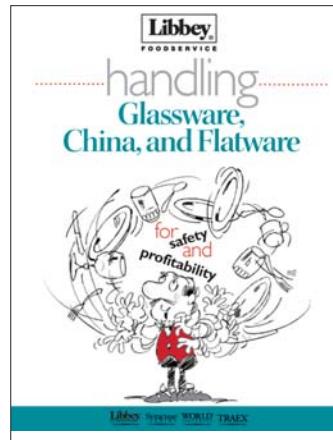

Check for these causes

- Scouring with abrasive pads
- Allowing china to remain unwashed after use
- Pre-soaking china in water over 160°
- Wrong detergent concentrations
- Hard water, iron content
- Old equipment with lime build-up inside
- Clogged or eroded spray nozzles
- Overworking china because inventory is inadequate

The Problem: Unknown Losses

Check for these causes

- No system for recording discarded ware
- Inadequate storage facilities
- Theft
- Inadequate china handling system

For more information on recommended china handling procedures, call **1-800-824-1667** to order our "Libbey/Syracuse China and Glassware Handling Guide." Available in English, French, and Spanish.

PLATE COVER AND EQUIPMENT SPECIFICATIONS

Listed dimensions/capacities should not be construed as specifications nor used as a standard of measure. The nature of the chinaware manufacturing process may cause normal size and color variations to occur.

Accepted trade practices recognize an allowable over/under variance in size of 1/8 inch in diameter and +/- 10% in capacity from the published catalog information. Exception of 1/4 inch variance on Bone China items over 12 inches.

For ALL plate cover and equipment specifications, please contact our Quality Control Department for specifications of our products

To support the sales of Syracuse China products, a variety of merchandising materials are available for your use. We offer market trend merchandising brochures, full-color product information sheets, catalogs, handling guides, and more – all available at no cost. Simply call Literature Fulfillment at **1-800-824-1667** for copies.
